I am 78 years old now and am beginning to see the end of my life. This a different state of being for me . i have had a long full active life. I have also seen many friends and relatives pass in many different ways in the past twenty years. It is very clear to me that not everyone is of the mind to want a compassionate end. Personally, I very much would like that CHOICE! I feel that it is an intelligent choice when someone is terminally ill to eliminate the misery and expense. I also would VERY MUCH LIKE TO MAKE A LEGAL REQUEST TO HAVE A COMPASSIONATE AID TO DIE IF I AM ADVANCED IN ALZHEIMERS TO THE POINT THAT I AM UNABLE TO KNOW WHAT I AM DOING. I have given this a lot of thought and it is not fair to ask a loved one to help you illegally. It pains me when I read in the news that a loved one takes that risk to help a loved one only to be punished when I know it was an act of compassion. I hope that this bill will pass to allow people in terminal situations to have a choice. thank you. june squier.
